

TERRAPIN X

UPDATING

the firmware of your TERRAPIN X

To update your TERRAPIN X please perform the following steps:

- connect your TERRAPIN X with its dedicated smartphone app
- in the app select “Configurator” and then click on “Update firmware”
- confirm updating the app to the latest firmware version
- the update will start and can take up to 8 minutes to finish
- during the update please do not interrupt the process (e.g. by using other apps or the TERRAPIN X)
- when the update is completed, clicking on “Update firmware” will result in a message being displayed that the firmware of your TERRAPIN X is up-to-date
